

**AMSOIL Championship Off-Road – Bark River International Raceway
Bark River, MI – August 13th, and August 14th, 2022**

Bark River, MI hosted rounds 9 and 10 of the Champ Off-Road racing series. John arrived with his Pro2 in lieu of the Pro Turbo SXS.

On Friday, August 12th, John qualified 10th in the Pro2. He went into the weekend very mindful of having one set of body panels for the Pro2 and planned to keep it that way. In

the Pro Lite John was unable to qualify due to blowing the engine in practice.

On Saturday, August 13th, the race day began with an extensive rain delay. It was a mud fest! John

On Sunday, John ran in 3rd place in the Pro Lite race, until coming into the white flag. He spun around and was hit several times taking him out of the race completely. The race was a smash fest; John prides himself on keeping it clean,

started in the last position in the Pro Lite, and by the end of the first lap, he was in P4 and advanced to P3. Between the hard driving, mud and bumping, John ended the race with a flat tire. The Pro2 was a completely different story! There wasn't a single lap that John wasn't in the 1st place spot, until he took the checkered flag. Folks this was his first Pro2 race, and it ended with a win!

and truly wanting to race. In the Pro2 race, our team was ready for mud, and the track dried out quickly once the Pro classes started. The race finished at a respectable 7th position.

We're working hard to get ready for "The Big House", Fall Crandon! We can't wait for an action-packed final race of the season for Champ Off-Road. Thank you for your continued support!
